Dear Daniel G. Sharp,

I thank you very much for service of the Police Department to our community and for your leadership.

I had a direct experience of the competence and thoroughness, and extreme politeness of two officers on 10 July 2015 at my home. After returning from home I set off my house alarm by entering repeatedly a wrong code. After several minutes two members of your department arrived at my door in response to either a message from the ATD alarm company or the noise from the alarm.

Their polite demeanor, detailed examination of my identification and insistence in inspecting the home for possible unintended entry exemplifies effective personnel selection and training, and the instilled pride that you encourage.

I wave occasionally as they patrol, without endangering my driving or while walking. It is a privilege to live in this community, and a large factor is attributed to your office and staff.

With appreciation and regards,

Ronald E Brown
